

Onychomycosis: Yes, it IS an Infection

11/05/2026 7:00 PM Eastern

Live Virtual Webinar

This webinar examines onychomycosis as a progressive fungal infection, emphasizing timely diagnosis and appropriate treatment. Participants will review the potential clinical complications of untreated infection and explore evidence-based antifungal therapies to guide individualized treatment decisions.

Learning Objectives:

At the conclusion of this webinar, participants will be able to:

1. **Describe** the progressive nature of onychomycosis and identify indications for treatment.
2. **Assess** the potential clinical complications of untreated onychomycosis, including their impact on patient health and function.
3. **Select** evidence-based antifungal regimens based on infection severity, patient-specific factors, and treatment risks and benefits.

Intended Audience: Podiatrists

Fees: \$ 0.00

Refund Policy: N/A
